*Wake to face the day
Grab this life and walk away
War is never done
Rub the patch and battle on
Make it go away
Please, make it go away*

*Confusion
All sanity is now beyond me
Delusion
All sanity is but a memory
My life, the war that never ends*

*Leave the battlefield
Yet its horrors never heal
Coming home from war
Pieces don't fit anymore
Make it go away
Please, make it go away*

*Confusion
All sanity is now beyond me
Delusion
All sanity is but a memory
My life, the war that never ends*

*Father, please come home
Shell shocked all I've known
Father, please come home*

*Label him a deadwood soldier now
Cast away and left to roam
Rapid is the road to sacrifice
Just takes longer to come home
Come home*

*Confusion
All sanity is now beyond me
Delusion
Crossfire ricochets inside me
Trapped in a memory forever
My life, the war that never ends*
