

I Don't Want to Miss a Thing

Álbum: *I Don't Want to Miss a Thing*

URL de la rola: <https://youtu.be/JkK8g6FMEXE>

Elaborado por: Trujillo Santes Angel Aaron

*I could stay awake just to hear you breathing
Watch you smile while you are sleeping
While you're far away and dreaming
I could spend my life in this sweet surrender
I could stay lost in this moment forever
Every moment spent with you is a moment I treasure
Don't want to close my eyes*

*I don't want to fall asleep
'Cause I'd miss you baby
And I don't want to miss a thing
'Cause even when I dream of you
The sweetest dream will never do
I'd still miss you baby
And I don't want to miss a thing*

*Lying close to you, feeling your heart beating
And I'm wondering what you're dreaming
Wondering if it's me you're seeing
Then I kiss your eyes
And thank God we're together
And I just want to stay with you in this moment forever
Forever and ever*

*I don't want to close my eyes
I don't want to fall asleep
'Cause I'd miss you baby
And I don't want to miss a thing
'Cause even when I dream of you
The sweetest dream will never do
I'd still miss you baby
And I don't want to miss a thing*

*I don't want to miss one smile
And I don't want to miss one kiss
And I just want to be with you
Right here with you, just like this
And I just want to hold you close
I feel your heart so close to mine
And just stay here in this moment
For all the rest of time
Yeah, yeah, yeah, yeah, yeah*

Don't want to close my eyes

Don't want to fall asleep

'Cause I'd miss you baby

And I don't want to miss a thing

'Cause even when I dream of you (even when I dream)

The sweetest dream will never do

I'd still miss you baby

And I don't want to miss a thing

I don't want to close my eyes

I don't want to fall asleep

'Cause I'd miss you baby

And I don't want to miss a thing

'Cause even when I dream of you

The sweetest dream will never do

I'd still miss you baby

And I don't want to miss a thing

Don't want to close my eyes

I don't want to fall asleep, yeah

And I don't want to miss a thing
